IU Health—Indianapolis, IN

Vanderbilt—Nashville, TN

WHY CHOOSE DEACONESS?

- A RAND study showed that for SF employers, Deaconess is the lowest-cost health system in the region.

- Deaconess has consistently been a high performer in CMS Medicare ACO programs—often ranking in the top 10 for quality outcomes and savings.

- The majority of our affiliates and partners are on the same instance of Epic, our electronic medical record, helping ensure collaboration, timely care, reduction of gaps in care, and less duplication of services.

- *U.S. News & World Report* named Deaconess the #2 Hospital in Indiana (only behind IU Health, which is in our network) four years in a row.

- We offer a full suite of services, such as occ med, wellness, virtual visits and employer clinics.

- Our network is priced on a percent of Medicare versus a discount from master charge.

- Our "narrow network" includes two academic hospitals in IU Health and Vanderbilt, leading to the highest level of care at the best price. This helps prevent leakage to other facilities that typically have very poor discounts for tertiary and quaternary care.
